

Unlock Seamless Claims Management with ShipInsure Integration for Gorgias

Are you a Gorgias user looking to revolutionize your insurance claims management process? Say hello to the ShipInsure Integration with Gorgias—a game-changing solution designed to simplify claims handling and elevate your customer support.

THE CHALLENGE **Complex Claims Handling**

Managing insurance claims in the world of ecommerce can be a daunting task. The need to switch between multiple platforms, complex workflows, and the constant demand for realtime updates can overwhelm even the most dedicated customer service teams.

1. Streamlined Claims Initiation:

• No more platform switching! Access the ShipInsure claims management right from your Gorgias dashboard.

THE SOLUTION: **Seamless Integration**

Enter the ShipInsure Integration with Gorgias. This integration brings ShipInsure's powerful claims management capabilities directly into your Gorgias environment, delivering a range of benefits that will transform your operations:

2. Real-time Customer Notifications:

- Keep your customers in the loop with automated notifications.
- Every customer order displays a dedicated "File a claim" button, making claims initiation a breeze.

3. Effortless Workflow:

- Handle all claims without leaving the Gorgias platform
- Simplify the entire claims handling process, reducing manual steps.
- Respond to customer inquiries swiftly, saving time and improving the customer experience.

5. Claims Filing Made Easy:

- File claims on behalf of customers effortlessly.
- Specify issues (lost or damaged) and choose between refund or reshipment with ease.

7. Dedicated Support and Maintenance:

- We've got your back with ongoing support and maintenance.
- Address issues, bugs, or updates promptly for uninterrupted service.

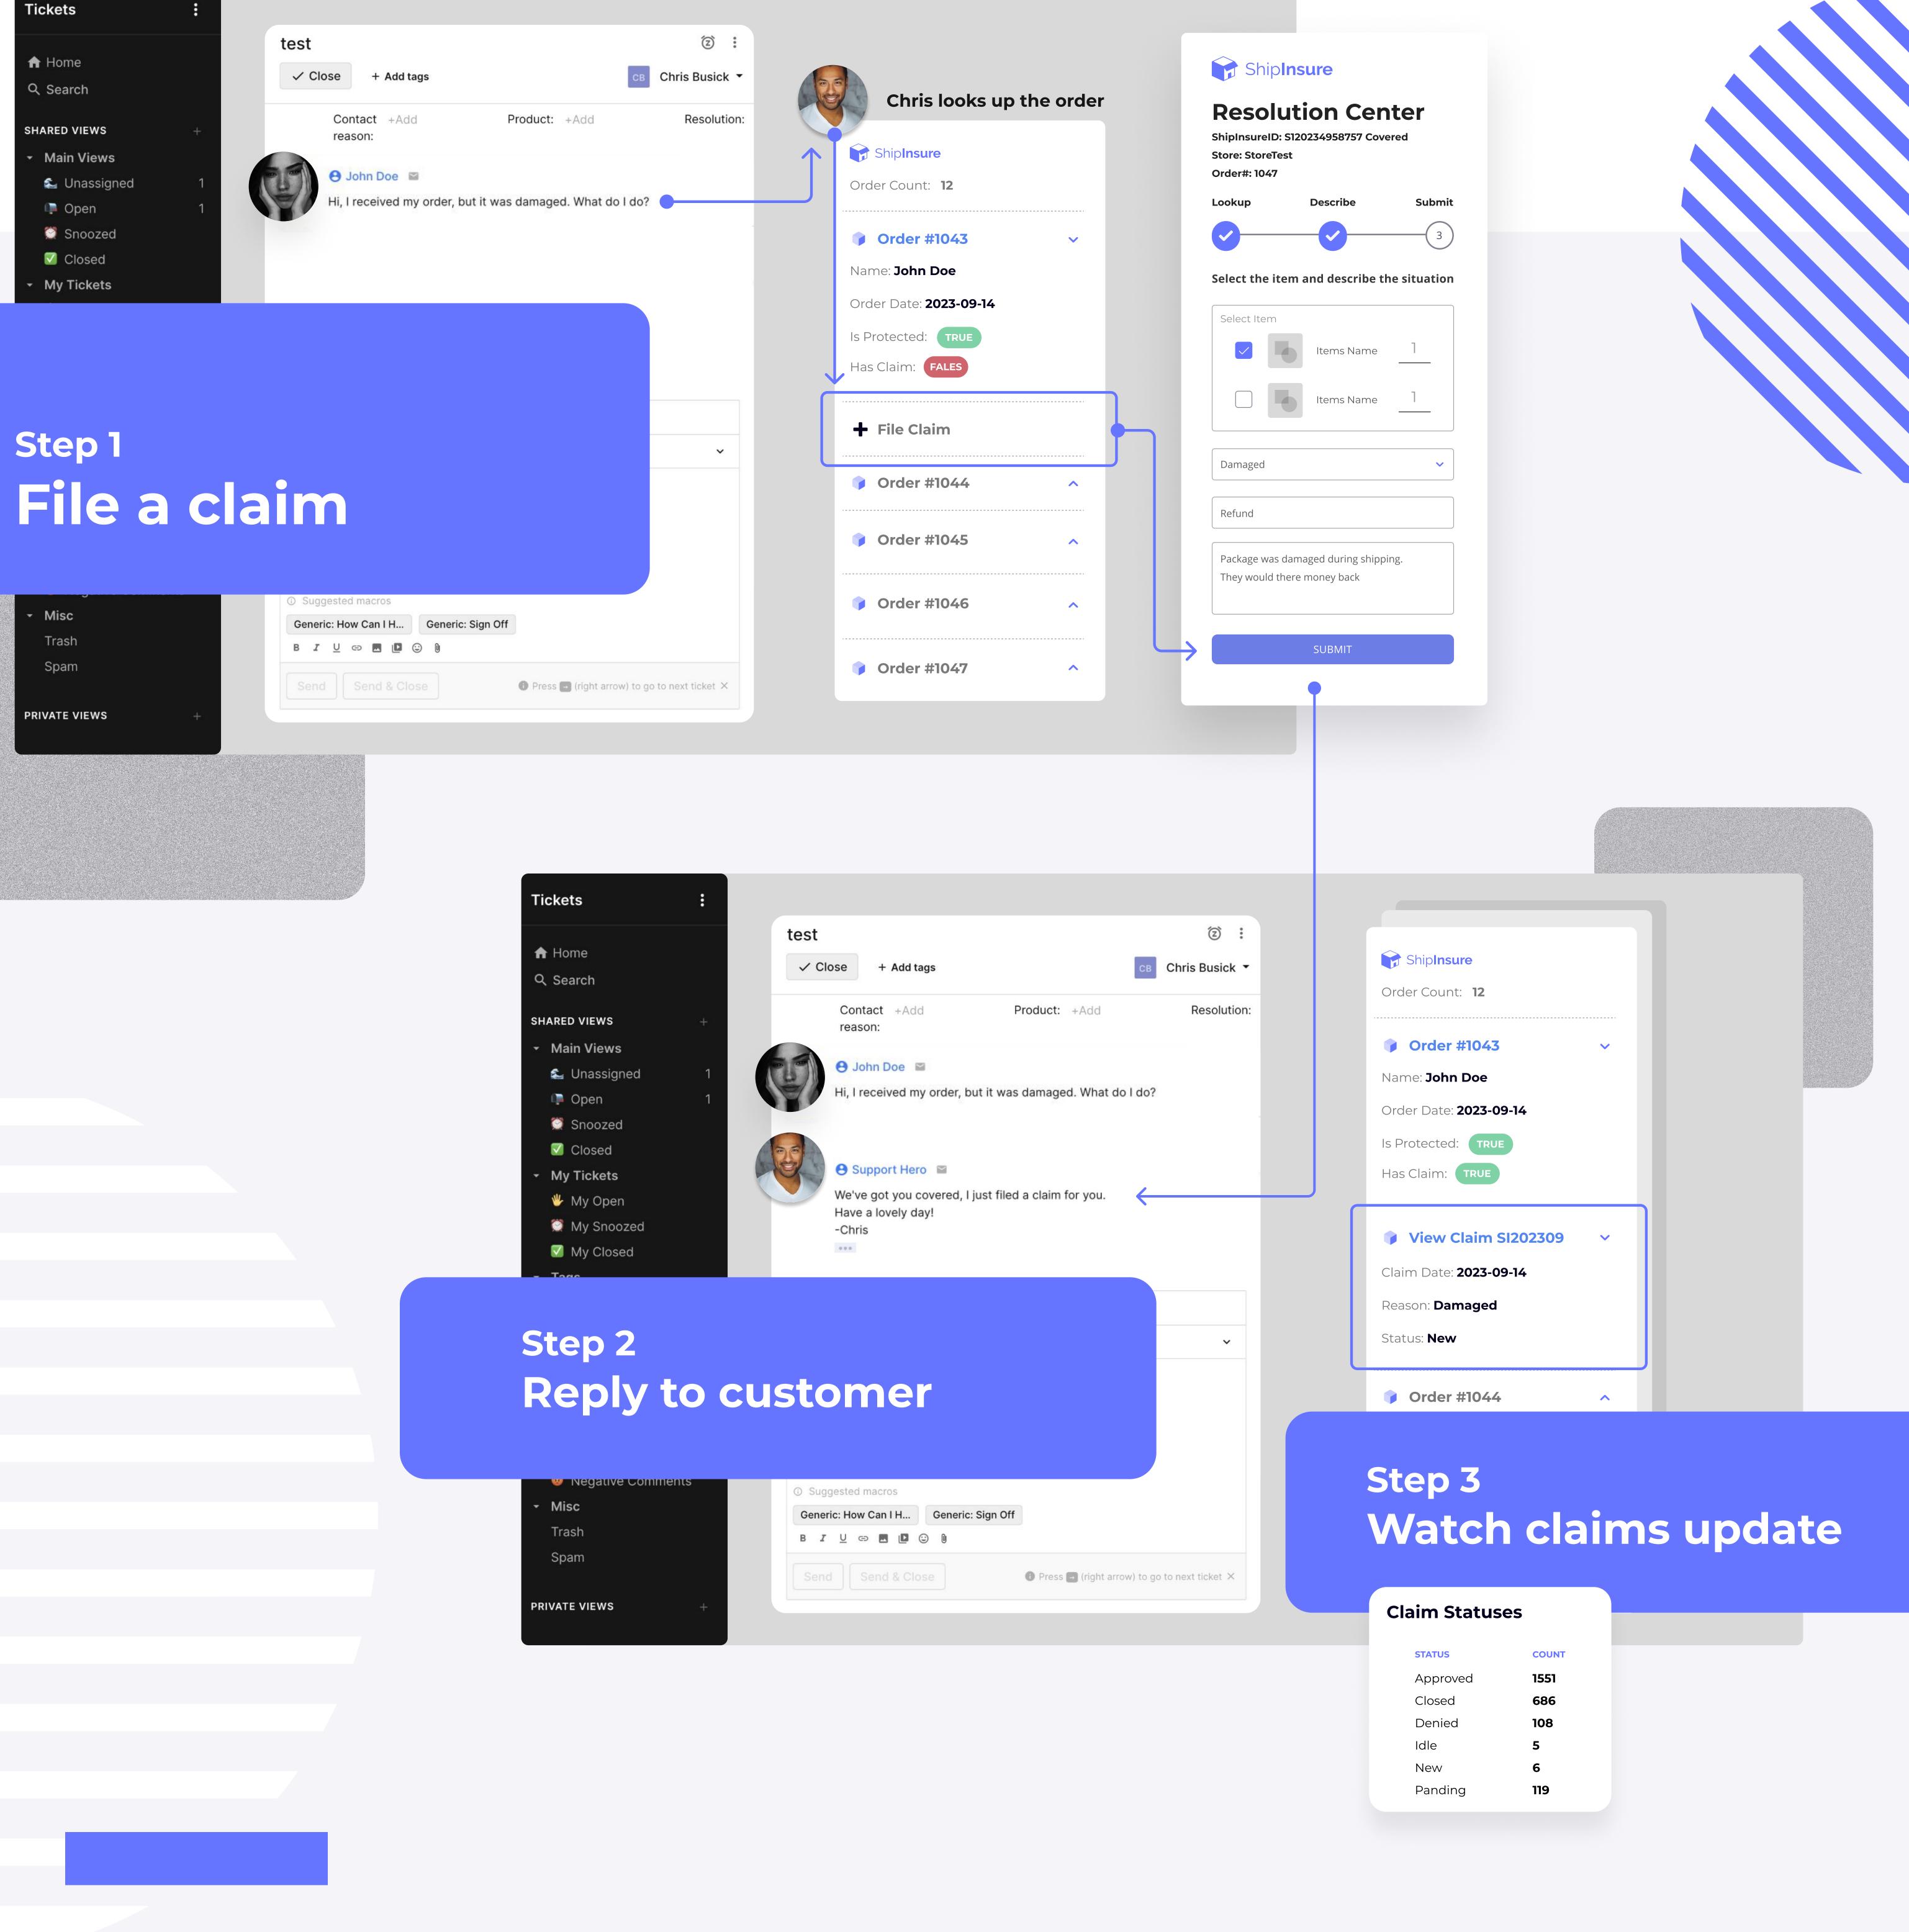

• Customers receive instant updates on the status of their claims, enhancing transparency and trust.

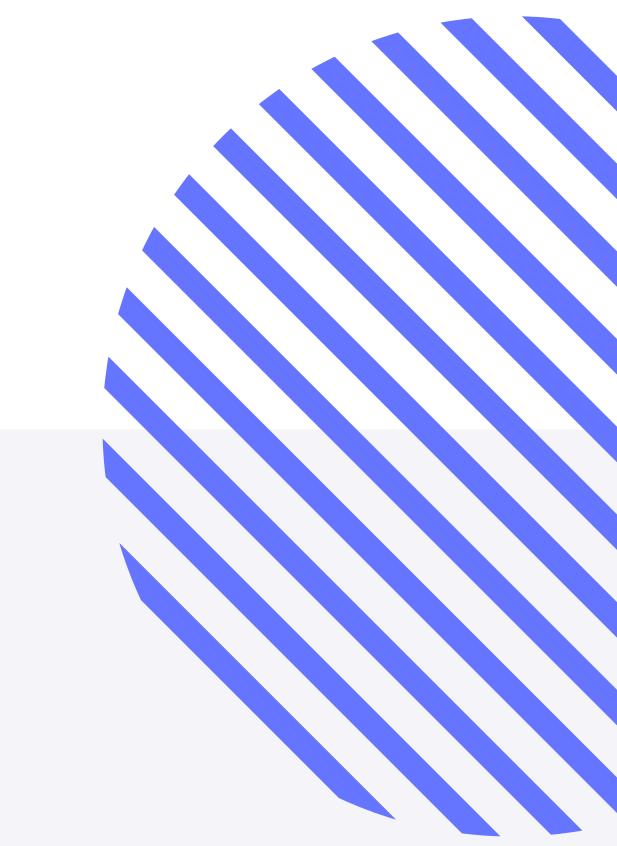

4. User Feedback Integration:

- Be part of continuous improvement through our feedback mechanism.
- Your insights and suggestions shape the future of the integration.

6. Comprehensive Documentation:

- Empower your team with comprehensive product documentation.
- Master the integration from setup to troubleshooting.
